

Orlando Verdin

Front-end Developer

<https://orli.land> hello@orli.land [+52\(311\)3751937](tel:+52(311)3751937)

About Me

Hi, I'm Orlando! I'm front-end developer with a knack for crafting user-centric, accessible, and high-performance web experiences. Utilizing React I bring websites to life that not only engage but also adhere to the highest standards of accessibility and performance.

Experience

FrontendMentor Projects

Mar 2023 - Present

FrontendMentor is a platform that allows me as a web development student to put into practice the knowledge I have acquired in classes. Through projects I can build real-life products in which I add value. These are some of the most notable projects in which I have participated:

Interactive Card Details Form

Payment gateway with credit/debit card preview, through validation on the client, makes sure to prevent the user from sending incorrect data to validation on the server.

BMI Calculator

Landing page that provides information about BMI, its importance and method to calculate it. It also includes a calculator where the user can enter different types of measurement units.

News Homepage

News website focused on a good user experience through responsive design to the device from which you access. Breaking news through API consumption.

Education

BSc Computer Science - University of London

Oct 2023 - Present

Aspiring Computer Scientist with a strong foundation in programming languages, operating systems, and software development methodologies.

Meta Front-End Developer Professional Certificate - Meta & Coursera

Ago 2023 - Present

Certification in front-end development offered by meta in conjunction with coursera. Its objective is to follow a web development learning guide focused on the React library, in addition to preparing to work within multidisciplinary teams.
